A BIT ABOUT ME

I'm a self-taught programmer and a Mechanical Engineering student who loves building, designing, and crafting awesome apps that really connect with users. I'm always eager to learn new things and solve problems in creative ways.

EXPERIENCE

**Senior Full-Stack Web Developer**
Sanamekan.com
May 2023 - Present, Istanbul

As a Full Stack Web Developer at Sanamekan, I specialized in developing web and mobile applications using **Next.js**, **React Native**, and managing backend systems using Strapi.

- Developed responsive and dynamic web application using **Next.js** (pages and app router), **Tailwindcss**, **MUI** and **TypeScript**, ensuring optimal performance and cross-browser compatibility.
- Utilized React Native to build efficient and engaging mobile applications for both iOS and Android platforms, delivering seamless user experiences.
- Utilized database systems such as **MongoDB**, **MySQL**, and **PostgreSQL** to store and manage application data effectively.
- Integrated **Firebase** for user authentication, implementing secure email/password, social logins, and session-based flows to enhance application security and user experience.
- Created CI/CD pipelines to streamline development and deployment processes, enabling faster and organized releases to **Vercel**.
- Monitored and resolved application errors using Sentry, improving system reliability and performance.
- Leveraged version control systems like **Git** and **GitHub** to ensure smooth collaboration and code versioning within the development team.
- Led a team of 2 developers, managing tasks using Scrum principles to ensure efficient project delivery and collaboration.
- Collaborated closely with designers, product managers, and cross-functional teams to gather requirements, provide technical insights, and translate concepts into fully functional features.
- Employed UI/UX design tools like Figma, Sketch, and Adobe XD to create visually appealing interfaces that align with user-centered design principles.

**Full Stack Developer (iOS Mobile Applications, AWS Infrastructure)**
Appwox Mobile
Jan 2021 - May 2023 (2 years 5 months), Istanbul

As a Full Stack Developer at Appwox Mobile, I played a key role in developing iOS mobile applications and creating robust infrastructures using AWS. With a passion for delivering seamless user experiences, I combined my technical expertise with innovative thinking to drive the success of various projects. By leveraging my skills in both frontend and backend development, I consistently delivered high-quality solutions that met client requirements and exceeded expectations.

- Built and maintained native iOS applications using **Swift**, ensuring performance and stability across devices.
- Collaborated with designers and product managers to align applications with project goals.
- Created and maintained app based AWS infrastructures, leveraging services like **EC2**, **S3**, **Lambda**, and **RDS**.

EDUCATION

**Mechanical Engineering Student**
Uludag University
2019 - Present, Bursa

**Locations**
- Bursa/Nilüfer
- İstanbul/Bakırköy

**Socials**
- github.com/Arshiash80
- linkedin.com/in/arshia-shahidi-7268941a2

**Industry Knowledge**
- Backend development
- Frontend development
- Native IOS development
- Web app development
- AWS infrastructures
- CI/CD Pipelines
- GIT & GitHub
- SCRUM principles

**Most Used Technologies & Programming Languages**
- JavaScript,
- TypeScript,
- Python,
- Swift,
- React,
- ReactNative,
- Next.js,
- AWS CDK,
- CloudFormation,
- Docker
- ...

**Other Skills & Tools**
Figma, Sketch, Miro, Notion, Monday, Postman, TablePlus, Microsoft Office (Word, Excel, PowerPoint, Outlook)

**Languages**
- Persian (native)
- Turkish (native)
- English

**Preferred OS**
- macOS
